About My Internship with Clevered..

- *Your internship experience with
Clevered*

My internship with Clevered was the best and far more fun than what I had imagined. I had so much fun while learning and while completing my projects with my mentors and they have helped me immensely. I would like to take this chance and thank all of my mentors.

About App..

- *App's Introduction*

*My app is an
Interactive Calculator
using speech synthesis.
I have used listening
and speaking blocks in
my project. First it will
tell you the instructions
to be followed and give
the answer using
speaking blocks and it
will be listening to me
when I will be
feeding the
information of
numbers in the*

**Option Name
(This will be
repeated for each
option of the App)**

- You should tell the number for the each variable using listening blocks to be stored and then finally to get the answer we have to enter the operation by typing.

An aerial photograph of a multi-lane highway bridge spanning a large body of water. The bridge has several lanes in each direction, with white lane markings. A few vehicles are visible on the bridge. The water is a deep teal color, and the sky is a lighter teal. A large, semi-transparent white circle is overlaid on the bottom right of the image, containing the text "Thank you!".

Thank you!
